

**AI CERTS™**

AI Certification Program

**AI+ LEGAL™**

# Executive Summary

The AI+ Legal Certification is designed for legal professionals seeking to integrate artificial intelligence into their practice. Covering the intersection of law and AI technology, the curriculum explores ethical considerations, data privacy, and the impact of AI on legal precedents and contracts. Participants will learn how AI tools can enhance legal research, document review, and case prediction, offering a competitive edge in the legal field. Through hands-on projects and case studies, attendees will gain practical experience with AI applications relevant to legal work. The certification culminates in a comprehensive understanding of how AI can be ethically and effectively employed in various legal contexts.

# Prerequisites

- A foundational understanding of legal principles, no professional degree required
- Curiosity and openness to learning about new legal concepts
- Interest in how AI impacts society and daily life, and openness to change
- Willingness to understand AI ethical frameworks and guidelines
- Basic grasp of ethical principles and moral reasoning

# Certification Modules

## Module 1

### **Introduction to Artificial Intelligence (AI) and Its Implications for Law**

---

1.1 AI Basics

---

1.2 AI in the Legal Industry

---

1.3 Understanding AI Technologies

---

## Module 2

# Machine Learning Fundamentals for Lawyers

---

## 2.1 Foundations of Machine Learning

---

## 2.2 Machine Learning in Legal Contexts

---

## 2.3 Practical Machine Learning Tools

---

## Module 3

# Natural Language Processing in Legal Research

---

## 3.1 Basics of NLP

---

## 3.2 NLP Applications in Law

---

## 3.3 Advanced NLP Techniques

---

## Module 4

# AI in Contract Review and Management

---

## 4.1 Contract Analysis with AI

---

## 4.2 AI Tools for Contract Management

---

## 4.3 Practical Contract Management Scenarios

---

## Module 5

# Predictive Analytics in Legal Decision-Making

---

## 5.1 Introduction to Predictive Analytics

---

## 5.2 Predictive Analytics in the Legal Field

---

## 5.3 Implementing Predictive Analytics

---

## Module 6

# Ethical and Privacy Considerations of AI in Law

---

## 6.1 AI Ethics in Legal Practice

---

## 6.2 Privacy Concerns with AI

---

## 6.3 Regulatory Landscape for AI

---

## Module 7

# Legal and Regulatory Framework for AI

---

## 7.1 Current Legal Frameworks for AI

---

## 7.2 Drafting AI Regulations

---

## 7.3 AI and Legal Practice

---

# Implementing AI in Legal Practices

---

## 8.1 AI Integration Strategies in Legal practices

---

## 8.2 Case Studies of AI in Law Firms

---

## 8.3 Future of AI in Legal Profession

---

# Certification Outcome

Upon successful completion of the AI+ legal certificate program, participants emerge with a profound understanding of AI technologies relevant to the legal field, enhancing their adeptness in working with AI tools. Equipped with skills to navigate and apply AI in legal research, document review, and case prediction more efficiently, they gain a competitive edge in a job market increasingly valuing tech-savvy legal professionals. Moreover, their knowledge of ethical considerations and legal implications surrounding AI usage ensures responsible and informed practice. With the ability to innovate legal services and practices, graduates not only improve client satisfaction and operational efficiency but also become catalysts for change in an industry undergoing rapid technological transformation, positioning themselves as leaders shaping the future of law.

## Market Insight

The AI+ Legal Certification equips legal professionals with essential AI skills to thrive in a tech-driven legal landscape. Graduates gain a competitive edge by mastering AI applications in contract analysis, legal research, and ethical considerations, enhancing efficiency and innovation in legal services. Vital for staying ahead in a digitally evolving field, this program ensures practitioners remain relevant and effective.

## Value Proposition

The AI+ Legal Certification equips legal professionals with essential AI skills to thrive in a tech-driven legal landscape. Graduates gain a competitive edge by mastering AI applications in contract analysis, legal research, and ethical considerations, enhancing efficiency and innovation in legal services. Vital for staying ahead in a digitally evolving field, this program ensures practitioners remain relevant and effective.

## Additional Features

AI+ Legal certification programs equip legal professionals with essential knowledge and skills to navigate the intersection of artificial intelligence and law. They cover AI fundamentals, ethics, data privacy laws, intellectual property rights in AI, and its impact on legal practice. Through a blend of theory and practical applications, including case studies, professionals gain insights into responsibly and effectively integrating AI into the legal framework to address emerging challenges.

# AI Experts

## Jason Kellington

AI Expert

As a consultant, trainer, and technical writer with more than 25 years of experience in IT, I specialize in the development and delivery of solutions focused on effective and efficient enterprise IT.

## Justin Frébault

AI Expert

I'm a boutique data consultant specializing in data mesh and lakehouse solutions. I've dedicated my career to helping organizations transform their approach to data, moving beyond mere knowledge.

## J Tom Kinser

AI Expert

I have over forty years of experience in software development, data engineering, management, and technical training. I am a Microsoft Certified Trainer and a software developer, holding multiple certifications.

## Terumi Laskowsky

AI Expert

Country Manager for Global Consulting Services in Japan, Specialties: Information Security (Compliance, Policy, Application, Host, Network)
